

MINISTRY WITH MYANMAR REFUGEE CHILDREN

This month we faced some difficult situations in the village. Some children stopped attending Teacher Dolly's learning center and, as a result, could no longer participate in our classes. This happened because many families became afraid after receiving visits from immigration authorities, as not all of them have legal visas to remain in the country.

At the same time, other children have started attending our classes and are already being reached with the teaching of God's Word. We praise the Lord for every new opportunity to share His love.

It deeply saddens us to know that some children can no longer be with us. This is a reality very different from what many of us have experienced: living without the freedom to come and go, constantly fearing deportation.

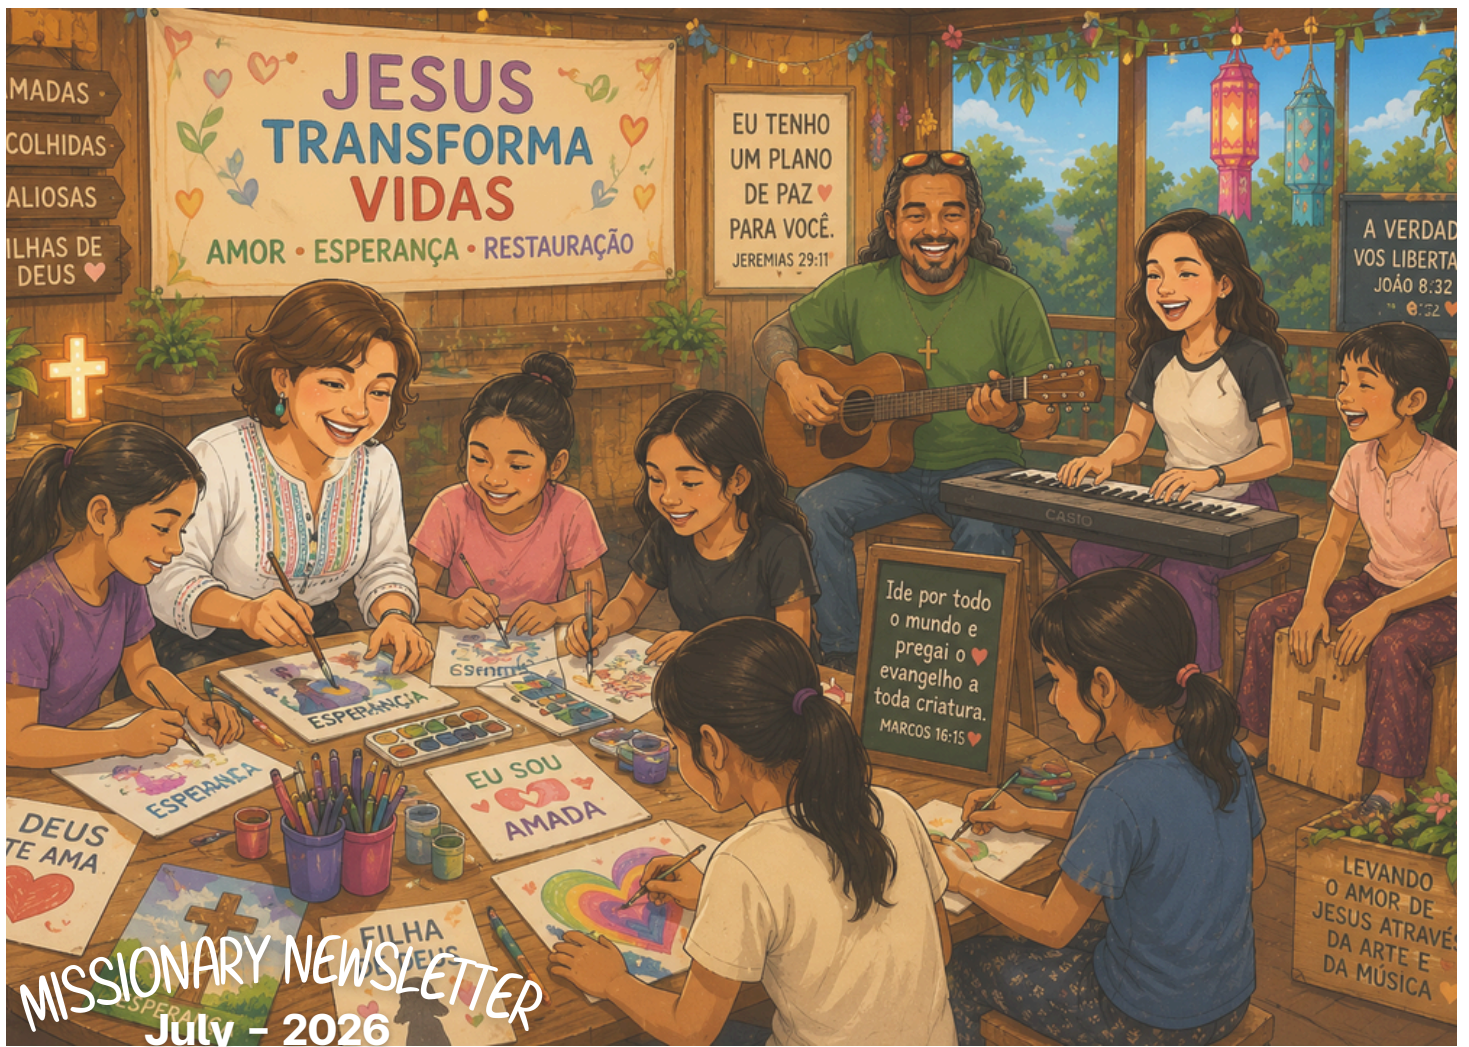

LOCAL CHURCH

This month we officially began serving in our local church. Meire joined the Children's Ministry, teaching God's Word to the children, including supporting and teaching children with autism. Samuca and Amanda also began serving on the worship team, ministering through music and worship.

We are deeply grateful to God for our pastor's trust in our calling and for opening doors for us to serve the church with the gifts and talents He has given us. It is a great joy to be part of strengthening the local church and helping children, youth, and adults come to know and glorify Christ.

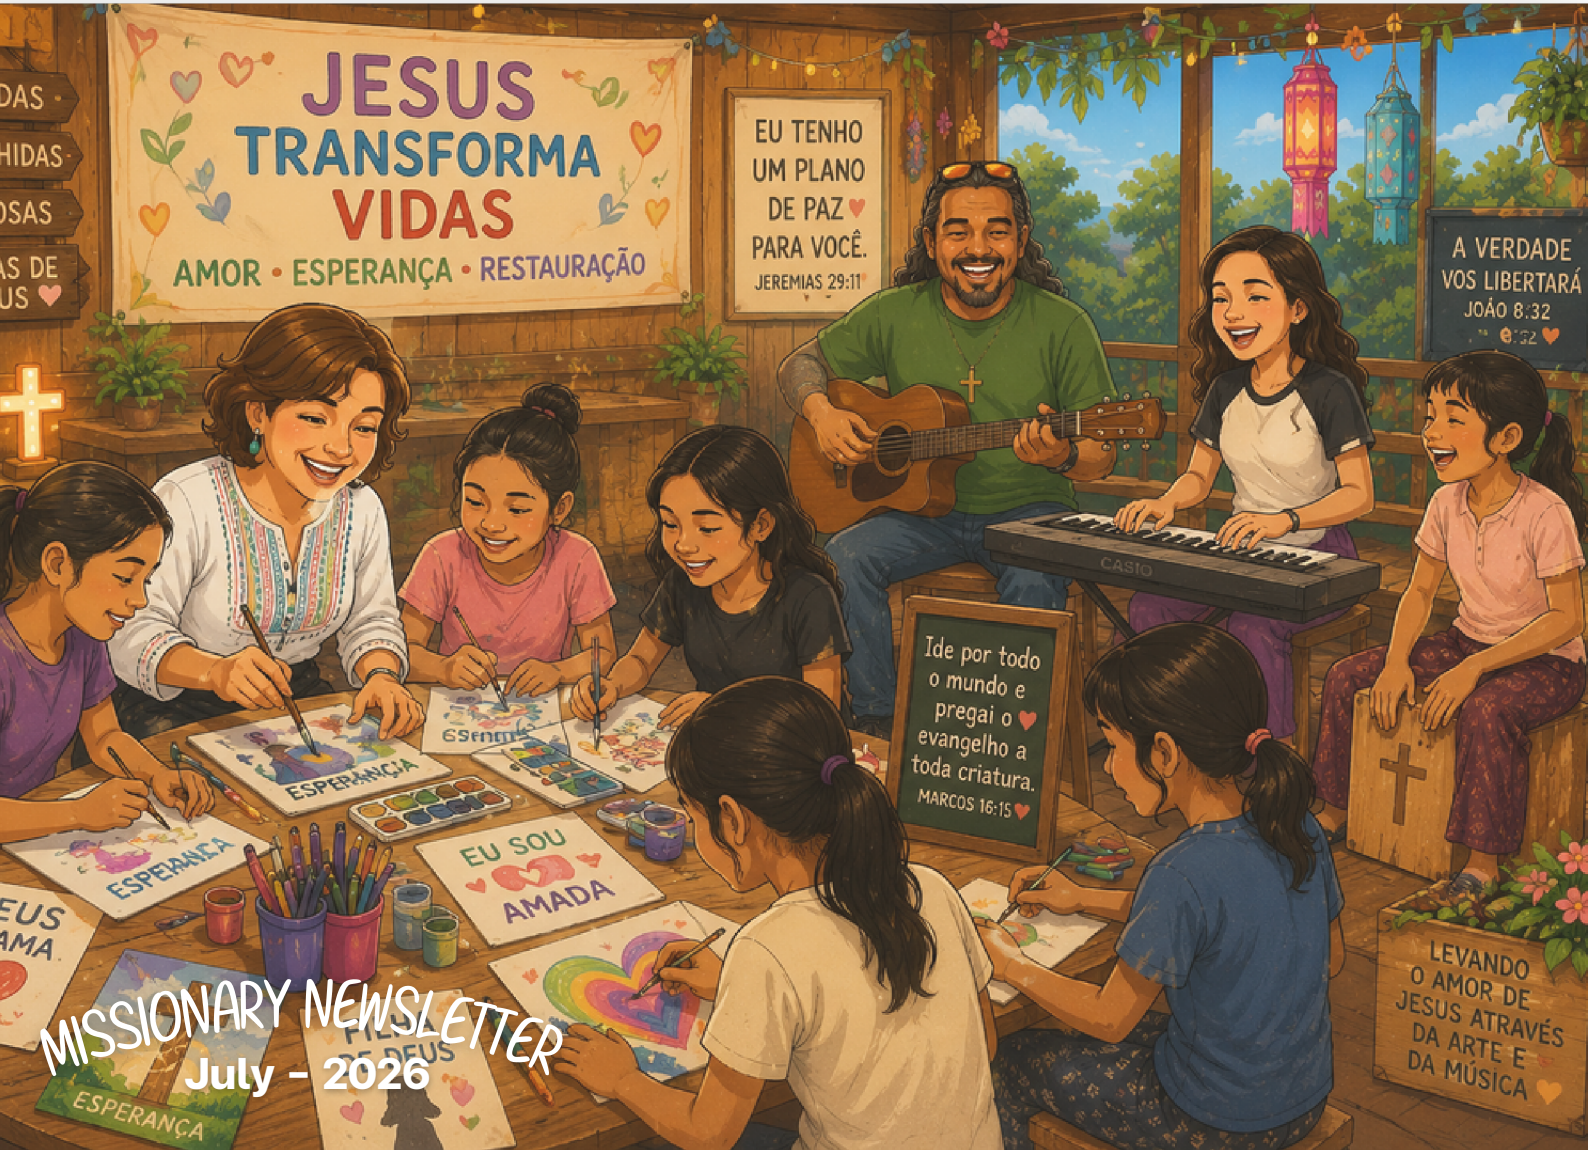

MUSIC LESSONS & ART THERAPY

This month, the Lord opened a door we had been praying about for a long time. We began serving at For Freedom, a foundation dedicated to rescuing girls who have been victims of human trafficking. In addition to providing a safe and loving environment where they can rebuild their lives, the foundation offers vocational training through bakery, English, and beauty courses, preparing them for a future filled with greater dignity and opportunity.

God has given us the privilege of being part of this mission. Samuca, together with Amanda, is teaching music and musical instruments, while Meire leads art therapy workshops, using art as a tool for expression, healing, and emotional restoration.

We are incredibly grateful to the Lord for entrusting us with this new mission field. Our prayer is that, through art, music, and above all, the teaching of God's Word, these girls will experience Christ's restoring love and find in Him the hope of a new life.

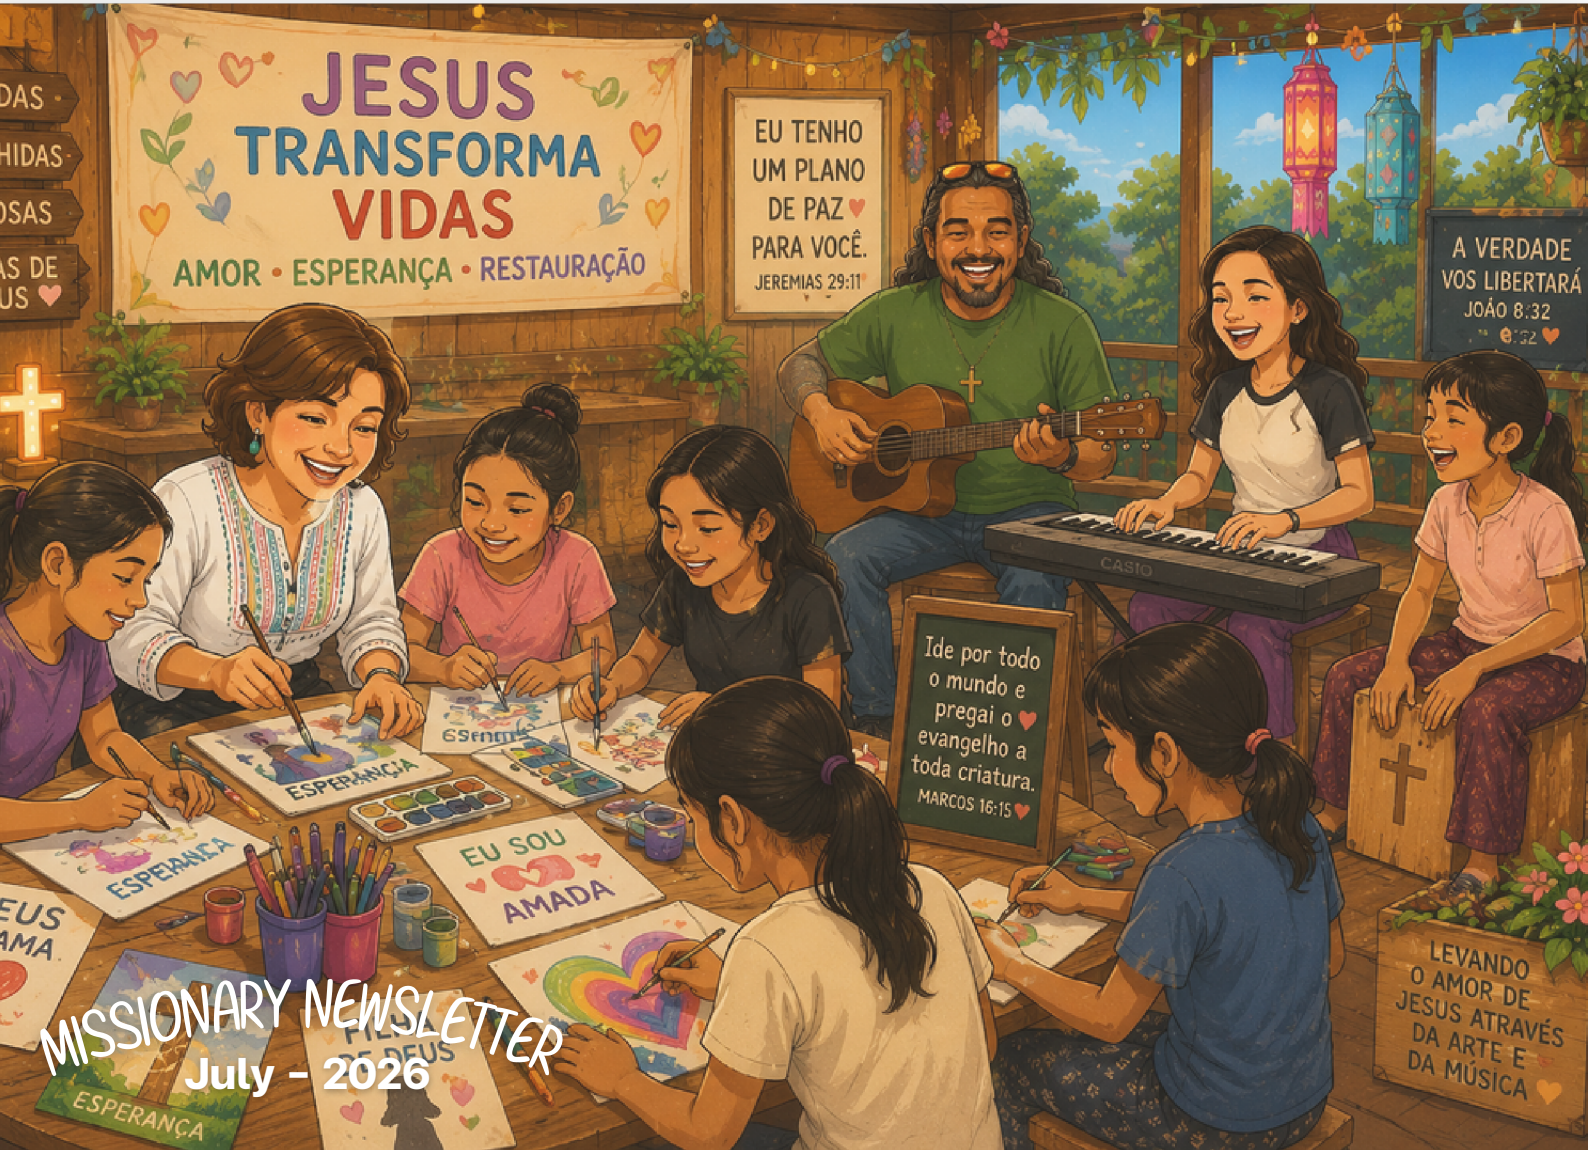

MINISTRY IN TALANG

Our ministry with Thai children at Light House Church, combining English lessons with the sharing of the Gospel, continues to grow. Every time we arrive, it brings us great joy to see how much the children love spending time with us and how excited they are to participate in every activity.

We thank God for opening yet another door and allowing us to be instruments in His hands. It is always a precious time filled with joy, games, worship, and learning.

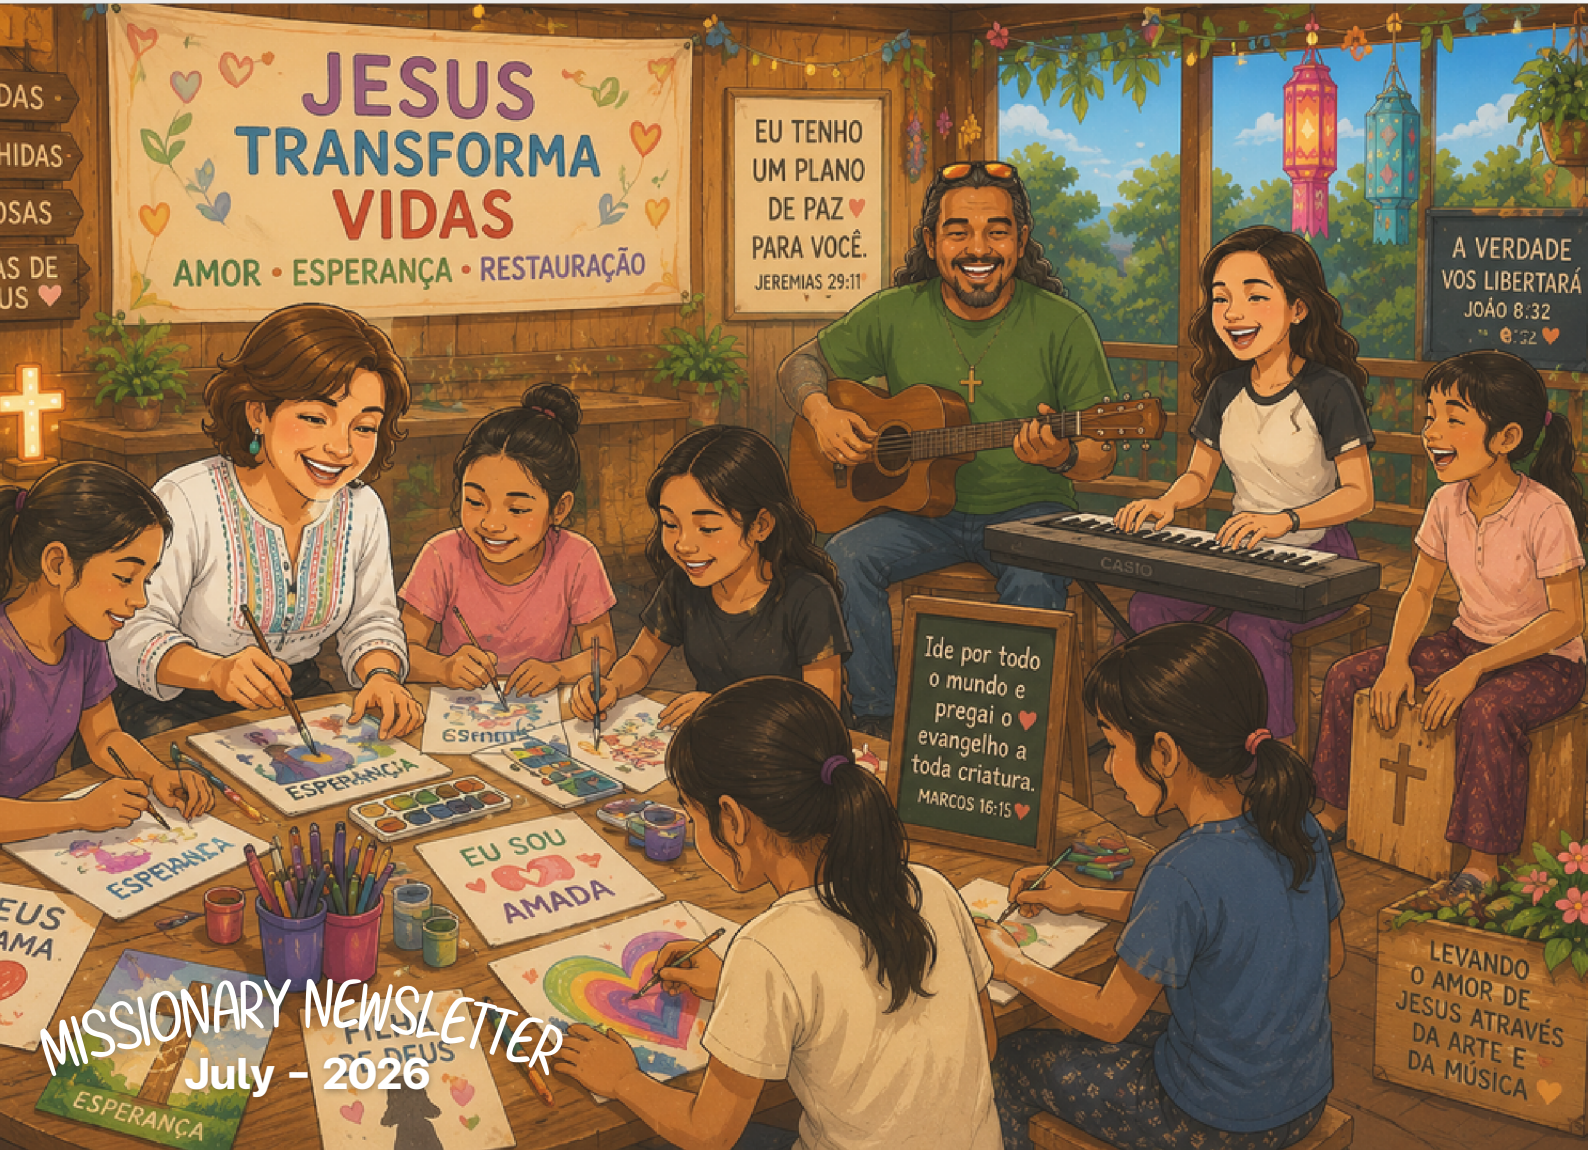

YOUTH MINISTRY – ALPHA YOUTH

Amanda continues serving as one of the leaders of Alpha Youth, an interdenominational ministry that disciples teenagers through God's Word while providing biblical guidance, a sense of belonging, and Christian fellowship.

Please pray that the Lord will continue to give her wisdom and guidance as she seeks to reach the hearts of these young people.

SMALL GROUP

This month our Small Group schedule underwent some changes. Since our church now hosts a Bible study cell group every other Wednesday, we decided to join those meetings together with our church family and invite the people who attend our Small Group to participate as well.

This change has been a great blessing. In addition to providing meaningful fellowship, it has allowed our guests to become better connected with the local church, build stronger relationships within the body of Christ, and grow in their knowledge of God's Word.

We are thankful to the Lord for this opportunity to walk in unity with the church and to see new people welcomed, discipled, and encouraged in their faith journey. Please continue praying that God will keep adding lives to His Kingdom and strengthening everyone who takes part in these gatherings.
